

JUDGE REVEALS HOW VIGILS HELPED BEAT DISEASE HERE'S MY VERDICT ON CANCER HEALING

NEW LIFE (UK) AUG 2007

A TEXAS judge who believed God 'wanted him to stay around for a few more years' has been miraculously healed of cancer.

Judge Robert E Newsom, from Sulphur Springs, gave his testimony at the 4th Annual World Christian Doctors Network Conference in Florida last month.

He believes that prayer and support from his local church are the main reasons that there are no signs of cancer in his neck - a fact that cannot be explained medically.

Robert told reporters after the Conference that he was diagnosed with cancer in February 2002, but by April that year, doctors said he was completely healed.

He added, 'I had noticed a knot coming up on the left side of my neck side and the doctors said that the lymph nodes were cancerous. It was melanoma cancer, which is quite unpredictable and sometimes quite deadly.'

'So I ended up going to a local hospital and during that time many people were praying for me and, as they and I prayed, God increased my faith and encouraged me that he really could do a work in

my life and he wanted me to stay around for a few more years.

'A miracle did occur and the doctors declared me cancer free and I am so grateful.'

Robert says thousands of Christians were praying for him throughout the USA.

'I had a Bible-believing church behind me and they prayed for me tremendously. When I went to the cancer hospital in Houston, Texas, the news was actually put on the front page of the local paper and that got the whole community involved.'

MIRACLE

'Who would expect that they would put someone who has cancer on the front page of the paper? But they did so in my case. We ended up with thousands of people praying for me and it made all the difference.'

His wife Robbie praised God for the miracle.

'The Lord was faithful to increase my faith pretty rapidly,' she said. 'God just started showing me truth in the Scriptures, and encouraging me through other believers. Of course, I had moments of darkness when the enemy would come in and kind of rattle my faith a little.'

It's a miracle: Judge Robert E Newsom and his wife Robbie after he told his story at a Christian Doctors Network Conference last month
